

AT GLENDALE HIGH

MANY ACTIVITIES LAST DAY OF 1916 SESSION—FACULTY JOLLY-UP.

Exit school—enter vacation. The scenes shifted yesterday with a bang. It was one day when studies made way for the good cheer of the Yuletide. Teachers and students alike were full to overflowing with the merry spirit of Christmas.

The girls were happy because they collected \$33.58 for charity. The Seniors were happy because they had had such a fine time the night before. The faculty was happy because it could not forget that big surprise party Thursday afternoon. The Committees were happy because they were so full of Roman banquet. The Spanish students were happy because they all got pretty Xmas cards from their teacher. The debaters were happy because they got such good support in their debates. The basketball team was happy because it had beaten Manual Arts 34-50. The Glee Clubs were happy because they had such sweet voices. Bill Balthis was happy because he got the ink off his nose. Mr. Moyses was happy because he gets three days' vacation—Christmas the day after, and New Years. The school was happy because it is going to have a school paper. The school was happy because the next two weeks are vacation.

And perhaps you should like to hear about some of these activities that so recently showered happiness over Glendale High School.

Early in the day the following Cicero students were initiated into the Comites: Bill Balthis, Ila Brooks, Margaret Gregg, Margaret Lusby, Annabel McClellan, Dudley Pigg, Herbert Toll, Lela Whitehead and Inez Veysey. It was a stiff initiation, too. Then came the banquet—a regular Roman dinner beginning with apples and ending with nuts, just like all regular Roman dinners. The affair was held in the Latin room which was decorated in olive branches and smilax. The usual Roman scenes adorned the walls. Kathryn Coates, Council of Comites performed the rites of the offering to the Gods.

At 12:50 the regular weekly assembly was called. It was destined to be the merriest in a long while. Herbert Scheuner opened with the announcement of the new school paper. The young orator's ironical wit brought down the house. Herbert, just keep it up; you're destined to be a great man some day—that is, unless some circus nabs you for head splitter in the side show.

With school spirit up Mr. Ferguson made one of his famous athletic appeals. He told the school that it had an excellent basketball team this year. He declared that they simply cleaned M. A. up in Thursday's practice game and that they could do it again. He said that we would meet our old friends (?) Alhambra the first Friday in 1917, at Alhambra. He appealed to everyone with the slightest germ of school spirit to make arrangements to get over to Alhambra on that date. We're with you, Mr. Ferguson.

Mr. Rice of the Board of High School Trustees extended Christmas greetings to the students in behalf of the Board.

Mr. Moyses presented the Girls' League with \$33.58 which had been collected for the charity fund. Jeanette McClellan, president of the league thanked the student body in behalf of the girls.

Then came the music. The orchestra, the boys' Glee Club, an instrumental trio, the girls' Glee Club, and the orchestra again, took turns at fishing for applause. They all proved good fishermen. Mrs. Gibson deserves great credit.

But when it comes to reeling in applause, Mr. Moyses has them all beat. Fellow citizens, you should have been there when Mr. Moyses announced that there would be no seventh or eighth periods. "No more school till 1917," said he. Then it happened. Strange to say, the roof still remains on Glendale High School.

The crowning feature of the day was the big debate. Almost from the time the assembly was dismissed at 2 o'clock until the debate began at 3 o'clock the band hailed the coming event with loud acclaim. Patriotism was the ruling spirit, and Glendale was determined to give Santa Ana and Pasadena a run for their money.

Before a large crowd of enthusiastic Glendale rooters which filled the auditorium Harland and Sam Durand argued the folly of Dillingham Immigration Bill against two veteran debaters from Santa Ana. Argument after argument they tore down to the tune of loud applause. Argument after argument they built up to the tune of the head-throbs of

GLENDALE POSTOFFICE

RANDALL'S AMENDMENT TO APPROPRIATION BILL IS APPROVED

The Postoffice committee yesterday approved the amendment to the appropriation bill for the next fiscal year introduced by Congressman Charles H. Randall of this district, authorizing the Postmaster-General to establish a third-class postoffice in Glendale and providing funds to conduct the same. Action of Congress is required for re-establishment of such offices as this and the bill will pass some time in January. Money for the support of the office will be available July 1.

Congressman Randall has been untiring in his efforts to secure this much needed institution. For Glendale. On October 24 Mr. Randall, who was then at his home in Highland Park received a wire from Postmaster-General Burleson stating that order would be issued effective January 1, 1917, establishing independent postoffices at Glendale, South Pasadena, and Alhambra, with all necessary postal facilities. A wire received by the Glendale Evening News this morning from Congressman Randall contains the information that the postoffice committee has sanctioned the matter and the long desired independent postoffice for Glendale is in sight.

Congressman Randall has not yet made the appointment of a postmaster for this place. He gave a hearing to fifteen candidates for that office some weeks ago and has had the matter under consideration since.

CHAPTER BA. OF P. E. O. ENTERTAINED

Chapter BA. of P. E. O. was delightfully entertained in an all-day meeting yesterday at the home of Mrs. Nellie Case, 105 South Maryland. Mrs. Laura Kille was the assistant hostess. The house was festively decorated with the holiday colors. A delicious two-course luncheon was served from a table whose center piece was a miniature Christmas tree brightly adorned. A business session, the president, Mrs. Eva J. Cunningham, presiding, was held in the forenoon. Mrs. Charlotte Campbell, president of Chapter L of Glendale, and Mrs. Susie B. Dow, Mrs. Ina Randolph, and Mrs. Genevieve Goss, members of Chapter L, were guests of Chapter BA. All brought clever words of greeting.

The program of the day was based on the Christmas theme. Roll call was responded to with a recital of the interesting ways in which Christmas is celebrated in different parts of the United States, her dominions, and in other countries. Mrs. Elsie A. Weaver told two Christmas stories, one a Christ legend by Selma Lagerlof, the other, Henry Van Dyke's "The Mansion." These were followed by humorous readings by Mrs. Carrie A. Willisford, and Mrs. Genevieve Goss. A grab bag of Christmas gifts, arranged by the program committee, created much merriment as trifles and jokes on members were unwrapped from every conceivable size and shape of package. After a delightful afternoon while fingers busily plied on Christmas gifts, the chapter adjourned to meet on January 5th at the home of Mrs. Weaver.

MR. AND MRS. W. E. EDMONDS COMPLIMENTED

One of the charming social events of Anniversary Week was the dinner party given by Mrs. Clyde Brooks at her apartment 246 S. Louise St., for Mr. and Mrs. W. E. Edmonds. As the fifth anniversary is a wooden one, the color scheme throughout was in the soft warm shades of the maple. The place cards were small souvenir spoons with dates 1911-16 in silver upon them. Maple platters were in evidence upon the table. The hostess remembering the tradition that preachers were fond of chicken, served planked chicken as the piece de resistance with peas and browned potatoes, olives, brown bread, amber jelly, nut salad, spice cap pudding with brown butter sauce, chocolate cream mints, and salted walnuts furthered the idea of wooden colors.

Besides the guests of honor, were Dr. and Mrs. J. R. Pratt of Pasadena. The hostess was assisted by her daughter Miss Clyde Brooks. After partaking of the repast the party repaired to the Presbyterian church to hear Dr. Pratt in his last study, before the holidays, on Romans.

their loyal supporters in the audience. Their opponents contested them at every point. But Glendale was behind them. They won the debate by the decision of every judge.

HALF MILLION DOLLAR FIRE IN L. A.

LLEWELLYN IRON WORKS DESTROYED BY EXPLOSION AND FLAMES AT EARLY HOUR THIS MORNING

(Special Service to Glendale Evening News)
LOS ANGELES, Dec. 16.—The Llewellyn Iron Works plant located at North Main and Redondo was destroyed by an explosion and fire early this morning. The loss is half a million dollars. The fire is believed to be the work of incendiaries. Employees on duty at the time say that after two explosions there were flames everywhere. They escaped unhurt through the flames and broken wires. The buildings were practically gone when the fire-fighting apparatus arrived. The police believe that gasoline had been sprinkled to facilitate the spread of the flames. The Llewellyn Iron Works plant was dynamited in 1910.

TO MAKE WHOLESALE ARRESTS

SHIP AMMUNITION TO VILLA IS CHARGE AGAINST MEXICANS AND AMERICANS

EL PASO, Dec. 16.—Federalists are preparing for wholesale arrests of Mexicans and Americans, charging them with shipping ammunition to Villa. Arrests will be made after the protocol is signed.

HARVARD PROFESSOR DROPS DEAD

PROF. HUGO MUNSTERBERG, NOTED PSYCHOLOGIST, SUCUMBS WHILE GIVING LECTURE

(Special Service to Glendale Evening News)
CAMBRIDGE, Mass., Dec. 16.—Prof. Hugo Munsterberg of Harvard, well-known psychologist, dropped dead to-day while lecturing before a class at Radcliffe college. Prof. Munsterberg was a native of Germany and was 56 years of age.

ARTILLERING AT YPRES INCREASES

FRENCH PUSH TEUTONS BACK NORTHEAST OF VERDUN GERMANS HAVE TAKEN BURZEU

(Special Service to Glendale Evening News)
BERLIN, Dec. 16.—The Germans have thrust the second British line southeast of Villeveke. The artillering at Ypres is increasing. The French have pushed the Teutons back from first position northeast of Verdun to second position. The left wing of the army in Roumania has reached Burzeu-Rimisoul.

FIRE FROM HIGH POWER WIRE

AUTHORITIES STILL SEARCHING FOR CLUES OF INCENDIARISM IN BIG LLEWELLYN PLANT FIRE

(Special Service to Glendale Evening News)
LOS ANGELES, Dec. 16.—President Llewellyn and Deputy Prosecutor, Claire Woolwine stated this afternoon that they think that high power wires may have caused the big conflagration in the plant of the Llewellyn Iron works. They say the fire started on the second floor and had burned for some time before the explosions were heard. It is believed that the explosions were due to gasoline stored in the plant. The search for possible clues of incendiaryism is being continued.

RAILROADS AND EMPLOYES CONFER

THE EIGHT-HOUR DISPUTE MAY BE SETTLED WITHOUT AID OF ADAMSON LAW

CHICAGO, Dec. 16.—President Holden of the Burlington lines, spokesman for the railroad in the Washington conference, says that the employers and employees are holding a conference in regard to the 8-hour dispute and this may be settled without the aid of the Adamson law. He said the meetings, so far, have been informal.

COL. BORREE SUCCEEDS THOMAS

ACTING ADJUTANT GENERAL OF CALIFORNIA MILITIA HAS BEEN APPOINTED TO THAT POSITION

SACRAMENTO, Dec. 16.—Col. Borree has been appointed adjutant general of the California militia by Governor Johnson. He succeeds General Thomas, who resigned last summer. Borree has been acting adjutant general for some time.

AID FOR GUARDSMEN'S FAMILIES

CONGRESSMAN EDMONDS IN BILL INTRODUCED TO-DAY ASKS \$3,000,000 FOR DEPENDENT FAMILIES

WASHINGTON, D. C., Dec. 16.—An appropriation of \$3,000,000 for the support of families of National guardsmen who are on duty on the Mexican border was asked in the Edmonds bill introduced to-day.

SONG BIRD PLEASURES

SPLENDID PROGRAM BY ELLEN BEECH YAW AND OTHER ARTISTS

The entertainment given at the Palace Grand theater last night under the auspices of the Glendale Lodge I. O. O. F., contained enough good things to furnish two splendid programs and those in attendance considered themselves indeed fortunate to be able to enjoy such a coterie of artists all in one evening. The famous songbird, Ellen Beech Yaw, or "Lark Ellen" as she is rightfully called, was the leading attraction. Her exquisitely sweet, bird-like notes and her charmingly sweet, dainty personality, delighted and entranced her audience. For one of her encores she sang "When California Poppies Bloom," written by Mary Newman, who was the singer's accompanist for the evening, the author of the composition sharing the singer's applause. In her final piece, the mad scene from "Hamlet," she not only satisfied with her art as an actress and as a vocalist, but was superbly beautiful in her white draperies and trailing greenery. All the numbers on the program received enthusiastic encores to which they generously responded. The program, with the exception of one or two numbers, was carried out as printed in our columns previously, and each and every number was of exceptional merit and heartily enjoyed.

Glendale's local artists, Spencer Robinson and Mr. A. Lowinsky came in for their share of the ovation accorded the performers. Mr. Robinson, always a favorite with those who have heard him once was at his best and his splendid talent added much to the pleasure of the evening. Prof. Lowinsky's wonderful mastery of the violin was apparent on this occasion as always.

A goodly sum was netted for the Odd Fellows fund, a per cent of which will be contributed to the Lark Ellen home for newsboys, maintained by Ellen Beech Yaw.

ATTENDING POULTRY SHOW

Dr. Irwin G. Royce, president of the Glendale-Tropico Poultry Association returned last evening from Santa Ana where he had been visiting the Orange County Poultry show. Dr. Royce says they have a very fine show, but it does not equal the Glendale show either in number of exhibits or quality of birds. H. L. Gill of Tropico and Dr. Royce will leave tomorrow for San Bernardino, where they will attend the San Bernardino Poultry show which opens at that place next Monday. Mr. Gill will have 20 of his famous Barred Rocks in the show and Dr. Royce will have a string of 22 birds in the exhibit—mostly Rose Comb Black Bantams.

DANCING PARTY

Miss Carrie Stone was the hostess at an enjoyable dancing party given at her home, 127 West Eulalia street Tropico, on Friday evening. Red and white roses were used in the effective house decorations. Dancing and games made the evening hours flit quickly and happily away and chocolate and wafers were served by the young hostess. Those who enjoyed the evening were Misses Esther Schremp, Phyllis Adams, Katherine Phillips, Catherine Adams, Evangeline Hunchberger, Marjory Imler, Ernestine Lyons, Margaret Boucher and Carrie Stone; Messrs. Willard Badham, David Carmichael, John Phillips, Bob Burkhardt, Bill Johnson, Seymour Smith, Ned Sherlock, Olin Wilson and Allen Smith.

ESTABLISH MILITARY SCHOOL

A movement has been started to establish a military school in the old Occidental college site in Highland Park. G. Wilbur Hawkins, a Philippine war veteran, and Dr. G. F. H. Delamer of the University of Dublin, Ireland, representing the California Military Institute, are the prime movers. An option on the college property for \$90,000 with an initial payment of \$10,000 has been secured. The people of Highland Park and Garvanza are asked to raise \$2500 toward the first payment. The plan is to afford boys of this section who are between the ages of fourteen and eighteen years an opportunity to complete the course in the junior cadet division, as provided in the national defense act, and then finish the course at the bigger school proposed on Newport Bay in Orange county.

The work of the mind should always precede the work of the vocal organs and the work of the hands. Think and then act.

TEACHING HOW TO LIVE

GLENDALE SANITARIUM IN ATTRACTIVE PAMPHLET DESCRIBES WORK

There has just been issued by the management of the Glendale Sanitarium a very neat and attractive catalogue giving, for the benefit of prospective patients and others, a comprehensive description of the aim of the institution and its methods and equipment. The text of the catalogue was prepared by H. A. Stebbins, for a long time resident at the sanitarium, and is in his usual forceful style. The book is beautifully illustrated, containing a panoramic view of the Glendale valley and the surrounding hills, beautiful nooks and corners in the sanitarium grounds, buildings and verandas and pictures illustrating the methods of treatment, examination, etc.

We glean from a perusal of the pages of the pamphlet that the aim of the Glendale Sanitarium is not only to make sick people well but to teach people to keep well or in other words, teaching people how to live. "The patient is taught to understand that good health can be attained and retained by intensive cultivation and that harmful habits of living like noxious weeds can be rooted out." This institution recognizes that the efficiency of an individual depends upon his daily habits and so teaches the patient how to eat, sleep, bathe, dress, breathe, work, relax, sit, stand and exercise. The beautiful surroundings and the restful atmosphere are described in alluring language and the methods of treatment and examination and the up-to-the-minute equipment graphically pictured. The pamphlet is in every way worthy of the splendid institution it represents.

COLORADO BOULEVARD SCHOOL

Friday was children's day at the Colorado Boulevard school and the clever entertainment provided for the children and their parents reflected much credit on Miss Waite, the principal, and her able corps of teachers. The program was divided into three parts, the first and second grades, the third and fourth grades, and the fifth and sixth grades, each presenting different forms of novel entertainment. The second grade was entertained with a beautiful and well laden Christmas tree in the first grade room and the second grade entertained with Mother Goose melodies, the children dressed to represent the different Mother Goose characters stepping out from a huge book, the cover of which bore a picture of Mother Goose and the title "Mother Goose Melodies," to sing the melodies appropriate to their costume. A little girl dressed to represent Mother Goose introduced each character as it stepped out from the book. The children were treated to nuts, popcorn, candy and apples. The first grade room was very beautifully decorated with huge boughs of live oak, from which brilliant red stars touched with gold shone. One corner of the room was cut off with asparagus plumosis dotted with hundreds of tiny red bells, while the windows bore wreaths of the asparagus plumosis and red bells.

The third and fourth grade presented a clever little operatta entitled "Toyland," the music of which was very pretty. Fairies, tin soldiers, a rag and a paper doll, jack-in-the-box, and all such treasures of toyland were aptly represented by the pupils of these grades, creating much interest and amusement.

The fifth and sixth grades gave a varied program, one of the chief features of which was the selections by the school orchestra composed of fourth, fifth and sixth grade pupils. The pupils of the two grades sang the Christmas songs of different nations with appropriate costume for each song. Other numbers on their program included a violin solo with ukelele accompaniment, Christmas recitations and selections. The blackboards in all the rooms were decorated with Christmas drawings, showing much skill on the part of the young artists, and showing Santa Claus in almost every conceivable way that the fond imagination of the young child pictures him.

GLENDALE WINS AT TENNIS

The Glendale high school tennis team beat the Monrovia high school 17 to 0 on the Glendale courts this morning. The Glendale team is composed of Bill Balthis, Ax West, Lehm Crandall and Roscoe Puffer. They have worked hard and were rewarded by this morning's victory.

O. SPENCER

AN ENORMOUS PROJECT

A. MEYER DESCRIBES WONDER-
FUL SYSTEM IN OVER-
LAND FACTORY

A. Meyer, Willys-Overland dealer
for Glendale, whose return from the
great convention of Overland dealers
in Toledo has been noted in these col-
umns, gives an intensely interesting
description of the wonders of the big
factory which he visited. Mr. Meyer
said:

"Nothing was ever so impressive
as our tour of the great plant that
turns out Willys-Overland cars. Our
Pullmans all parked in the company
yards. There was room enough, for
there are seven and three-quarter
miles of track within the plant. Each
man got a card containing a picture
of Mr. Willys and an autographed
message of welcome from him. Next
thing I knew we were lined up on
the steps of the stunning new admin-
istration building getting photograph-
ed. Elevators shot us to the com-
pany's own restaurant on the sixth
floor. There we had a corking
breakfast. At each plate was a copy
of the live new Willys-Overland
house organ, 'The Starter.' It mapped
our day's program. Then started
our tour of the plant.

"Our guides were carefully picked
men. They knew the plant from end
to end, and the parties were small so
that each member of the party could
have his questions answered. No-
body ought to try to sell Willys-Over-
land product without knowing this
plant. You can't grip the immensity
of the proposition till you do. It is
no piker business; \$25,000,000 are
tied up in land, buildings and ma-
chinery, not to say a word about the
stock of parts and raw material.
From the roof of the wonderful admin-
istration building, which stands
out like a state capital, you get a
great panorama of the plant. You
can then readily believe that it oc-
cupies 103 acres, with 4,486,680
square feet of floor space in daily
use and a production capacity of 1000
cars per day. You can appreciate the
growth from 250 employees in 1908
to 17,300 in 1916. One thousand
persons, more than the entire manu-
facturing force of many a company,
work in the administration building
alone. This structure, 375 feet long,
has every facility for rapid work, in-
cluding dictaphones, its own tele-
graph and telephone system and a
mail handling department that does
about everything but write the let-
ters.

"But this is nothing to what hits
when you cross into the shops. It is
a whirl of action, yet all is system.
Parts by the untold thousands are
here, with a value into the millions
of dollars. There are lines of motors.
I never saw so many crank
shafts together. Our guide said 6000
—I'd have believed 60,000. There
is stock in bins, stock in yards, stock
along the walls, connecting rods,
frames, fenders, mudguards, hoods,
rims, springs, axles, torsion tubes,
transmission gears, shafts, brake
parts, steering rods, pedals—it is an
unending procession. Every thirty
days sees an average of 1000 tons
of steel come in. It is handled by a
magnetic crane that enables two men
to do a work that formerly required
thirty. There are amazing machines.
The toggle press, for example, held
us all. This monster, with its pres-
sure of 1000 tons, shapes cold steel
like cardboard. A piece of metal fed
to it comes out as a side frame. It
can make 2000 of these in an eight-
hour day. Other mighty machines
stamp out radiator shells, fenders,
cowl dashes and doors. You take off
your hat to the drop forging ma-
chines. Down comes the hammer and
the fiery piece of iron is beaten into
shape. The complete drop forging
of the front axle can be accomplish-
ed with one heat. Every kind of part
requiring strength was drop forged
while we looked on, axles, crank
shafts, brake assembly rods, brake
and control rods, spring shackles,
gear blanks and brake rod sectors.
We saw the company's accurate sys-
tem of die making. It calls for a spe-
cial workman on each detail. One
works on the shaper, another on the
planer and a third on the sinking.
The multiple spindle drill in one
operation drills all the holes in the
front axle. This is a guarantee that
each will be in right relation to the
other. It was hard to drag us away
from the automatic turret lathe that
surfaces and finishes fly wheels. It
works as though somewhere within
its metal vitals a brain was concealed.
The workman has only to put on the
rough fly wheel, adjust the first set
of tools, push the lever, and let the
machine do the rest. The cast iron
is peeled off as readily as wax. Some-
times four or five operations are per-
formed at once. When one set of
cuttings is done, the machine stops
automatically, and the next set of
tools comes automatically into place.
Twenty operations are performed in
fourteen minutes. Twenty-six pounds
of metal are removed from the wheel.
One man can watch three of these
machines. The vertical cutter of
gears on fly wheels almost matches
the turret lathe in interest. Mov-
ing up and down, the cutter at the
same time slowly revolves, the fly
wheel turning in the opposite direc-
tion. By the time a complete revolu-
tion of the fly wheel has been accom-
plished all the gears are cut. We
all fell for the aluminum foundry and
for the machines that finish the alu-
minum parts. The multiple spindle
drill bores eighty-one holes in the
crank case in one operation. This is

a proof of the superiority of machine
processes, for the holes must be in
the right relation to each other. An-
other machine smooths the surfaces
of the crank cases, finishing seven
in nine minutes.

"Diamonds, real diamonds, are
consumed with apparently reckless
indifference in the wet grind room.
Placed in small tools they are used
to true the emery wheels on which
are ground the bearing surfaces of
the crank shafts. They are bought
in \$15,000 lots. We looked on while
whole forests of lumber were being
turned into bodies in the wood work
department. This lumber comes in
by carloads. As 214 feet of wood is
required on a small touring car, we
could readily see why so much was
required. You make this round and
you can understand this company's
immense consumption of material—
18,000,000 pounds of solder annual-
ly, 2,500,000 pounds of tin and lead
for smoldering, 10,000,000 pounds of
brass and copper, 12,000,000 feet of
steel tubing and 125,000 tons of steel.

"But what impressed me more
than all was the department in which
materials are tested. They have to
know a thing is right before it goes
into a Willys-Overland car. That's
how they safeguard the public.
Tests in the physical and chemical
laboratories are made in two ways.
Completed steel parts are subjected
to terrific tests. Axles are twisted
like roots of taffy candy. Small bits
of steel, six inches long, cut from
completed axles, are attached at both
ends and literally pulled apart. The
registering machine shows 200,000
pounds to the square inch necessary
to accomplish this, whereas a resis-
tance up to 125,000 pounds would be
proof of ample tensile strength.
Springs are tried for their resistance.
Steel articles are also put through
both heat and chemical tests. The
former determines the amount of car-
bon, an important factor; the other
determines the chemical composition
of the steel. Naturally every opera-
tion in all the plants tends finally
toward the assembly conveyor tracks.
There are four of them, each 645
feet long. We followed the whole
operation. We began at one end
where the frames and rear systems
are put in place. By the time the
other end of the conveyor is reached
the frame has grown into the finish-
ed car. From overhead parts are
lowered by chains. Along the way
men are attaching the parts. The
frame is not in motion all the time,
but can be instantly connected with
the links of an endless chain and sent
on its way whenever desired. Top
quality of workmanship is assured
by having each man do work on
which he is an expert, if it be only
to tighten a bolt. Lines of motors,
already tested, wait on both sides
of the conveyor. These are put into
place, cantilever springs are put on,
steering mechanism and lighting and
starting systems are adjusted. Grad-
ually the car takes form.

"Instead of painting the chassis
with a brush, a sprayer is used. It
does the work more rapidly, more
uniformly and at a lower cost. The
tracks of the assembly lead directly
through ovens in which the paint is
baked. Fenders and running boards
come into their places. Wheels with
the tires on are brought along on a
runway. First comes a front wheel,
then a rear wheel. You ought to see
them put on the tires. It is light-
ning. By a special device, invented
by one of the men in the department,
the tire can be put on a wheel in
three seconds. From overhead bod-
ies are dropped down on to the chas-
sis and soon made fast. The car is
now ready for its tests. The car is
volving wheels in the floor engage
the wheels of the car, and send them
at high speed to make sure that they
are operating freely. This is not a
test under the power of the car.
Gasoline and water are then put into
the car. It is pushed off the track
into another room, till its wheels are
in contact with wheels in the floor.
With the use of the self starter, the
machine gets its first chance to prove
the success of its construction.

"It surprised me the way the mot-
ors started. They were off with a
rush. There was no hitch or delay.
All the work had been done right.
In a few minutes the motor was
working apparently almost as smooth-
ly as if it had been a year on the
road. We saw how the cars were
shipped. The export department has
the big feature in this line. The fin-
ished car undergoes preparation by
having its wheels taken off and fast-
ened on the under side of the frame
which forms the top covering for the
car. The top is covered with tar
paper as a protection against the ele-
ments, and all is securely boxed.
Along comes a big crane running in
an overhead groove a quarter of a
mile long. The operator sits in a
small cab not unlike that of a rail-
way engineer. Chains grab the box
containing the car and within forty-
five seconds have carried it outside
the building and place it on the flat
freight car.

"It is processes like these, all that
I have described, that explain why
every car in the Willys-Overland line
is what it is at so low a cost. Mak-
ing so many is the answer, making
them to go all over the world and
having profited by the experiences of
users everywhere. Quantity produc-
tion, immense and costly machines,
skilled designing, careful inspection,
accurate tests of material, efficient
factory methods, rapid assembly and
advanced methods of handling, all
these we saw; all these tell why the
Willys-Overland Company lives up to
its ideal of a car for every need or

Attention, Boys and Girls
A JUVENILE AUTO FREE

WITH EVERY PURCHASE OF "HIGH FLIGHT" FLOUR MADE AT
OUR STORE DURING THE NEXT 60 DAYS, WE WILL GIVE "HIGH
FLIGHT" AUTO COUPONS. THE BOY OR GIRL SECURING THE
LARGEST NUMBER OF THESE COUPONS BEFORE THE CLOSING
DATE GETS THE AUTO ABSOLUTELY FREE. WATCH OUR STORE
WINDOWS FOR FURTHER PARTICULARS AND FOR CLOSING
DATE. GET BUSY TO-DAY, COLLECT ALL THE COUPONS YOU CAN
GET AND WIN THE AUTO.

EMPLOYEES OR MEMBERS OF EMPLOYEES' FAMILIES WILL
NOT BE ALLOWED IN THIS CONTEST.

The Auto Is Now on Display in Our Show Window

A WORD TO MOTHERS

We have decided to spend our advertising money so as to give you the direct benefit of it,
by giving you useful premiums. With five barrels you get a porcelain rolling pin; with 10 bar-
rels a non-absorbent metal bread board.

To further introduce "HIGH FLIGHT" Flour, we are giving away a Juvenile Auto to the
boy or girl collecting the greatest number of coupons that are given with each sack of flour
during a voting contest. Try a sack and help some boy or girl win the auto. Remember that
this flour is sold under an absolute guarantee; that if it does not prove satisfactory, your
money will be refunded.

During this contest coupons will be given with purchases of "HIGH
FLIGHT" Flour as follows:

1 Sack at one time.....	100 Votes
2 Sacks at one time.....	300 Votes
3 Sacks at one time.....	500 Votes
4 Sacks at one time.....	1000 Votes

taste, price, class and service right.
"This sightseeing tour was only
one angle of this convention. We
heard policy defined by the various
officials. The two days' program in-
cluded a rollicking beefsteak dinner,
a more formal banquet, a minstrel
show, a concert by the famous Over-
land band and a concert by the glee
club. Finally there was a speech by
the moving genius of it all, Mr.
Willys himself. You will agree with
me that this is some project to have
been put over all within one plant
and by the people of the organiza-
tion."

MESSAGE OF LOVE

Sarah Bernhardt's message to wom-
en how to keep young embodies
much of the real philosophy of life,
and the world would be much better
to live in if all men as well as wom-
en adopted it as a living principle,
and not merely to keep their youth,
Love people, she says, love life, and
love work. For, after all, the peo-
ple who take a keen interest in life
and their fellowmen and are absor-
bed in their work have not time to
grow old.—Baltimore American.

HOW I MADE A FORTUNE

Monday evening, December 18, at 8 o'clock, in the Congregational church, Third and Central, Dr. Fox will give his great and interesting lecture, "How I Made a Fortune."

Seldom does a speaker address a Glendale audience who so completely captivates and delights as does Dr. Fox. He possesses a wonderful ability to entertain and instruct; he

Dr. D. F. Fox

uses some of the most thrilling word pictures spoken in English. In order that many may have the privilege of hearing this brilliant speaker the price of tickets have been placed at the extremely low price of twenty-five cents for adults and fifteen cents for students and children.

Dr. Fox recently lectured before the Tuesday Afternoon Club of Glendale and was the speaker at the last graduating day of the Glendale high school. Mr. A. Lowinsky, so well and favorably known in Glendale, will play an opening violin number.

ONE THING LEFT TO DO WITH THE BIBLE

We have done everything that is possible with these Hebrew and Greek writings. We have overlaid them, clause by clause, with exhaustive commentaries; we have translated, revised the translations, and quarreled over the revisions; we have discussed authenticity and inspiration, and shown textual history with colored type; we have mechanically divided the whole into chapters and verses, and sought texts to memorize and quote; we have epitomized into hand books and extracted school lessons; we have recast from the feminine point of view and even from the standpoint of the next century. There is yet one thing to do with the Bible: simply to read it.—Richard G. Moulton.

ONE BEYOND

Willie—Do you think that moving pictures are the ultimate development of dramatic art?
Gillis—No. There will be one more. On the legitimate stage you can get along with brains and no beauty; in the movies you can get along with beauty and no brains, and the next stage of development will be one where you can get by without either.—Life.

GOSPEL TRUTH

The man who continually knocks his home town is generally the one who does the least for it and receives his all from it. And he is most surely the one who receives the least respect from the rest of the people of the town. If a town is worth living in it is worth boasting. To give it a knock is to insult your own intelligence.

PARAGRAPHS PERTAINING TO CHRISTMAS

By Samuel Parker

(Note—The following will recall an event, one of the many occurring in city and county, in which by concert and exhibition, contributions were raised for families of soldiers in the federal service. Aside from its historic interest, the song is pertinent to the Christmas time, when kindness and benevolence should greatly abound. It was in frequent use in winter of 1863-64.)

Remember the Poor

While plenty now smiles round your own cheerful home,
Where want is a stranger, and care cannot come,
There's suffering around you, on every hand—
Oh haste to relieve it, obey the command.

Hear the winds moaning—through forests now bare,
While keenly the frost-king is felt in the air,
Its cold blast may pass by your own well closed door,
'Twill enter the half-furnished homes of the poor.

And oh, as you gather around your fireside,
Where plenty and pleasure are wont to preside—
With money in bank and provisions in store,
Remember—oh gladly remember the poor.

A soldier, a father, a husband is dead,
His wife and his little ones ask you for bread.
To the front of the battle the old flag he bore,
Then hasten—oh patriots, drive want from the door.

Dark is the shadow that rests o'er the place,
And sorrow is there which time cannot efface—
For back to the dear ones and that much loved home,
The form of the father shall never more come.

Remember though large your possessions today—
Tomorrow misfortune may sweep it away.
Then cheerfully, gladly obey the command,
And give of your wealth with a liberal hand.

It was the privilege of the writer in war times to belong to a male quartet much used on patriotic occasions, and a feature of this work was, if not readily finding suitable songs in the books, original words were written for the occasion, fitted to some well known popular air. This also was a feature of the Christmas times, original words being often used, possibly no better than those in the books, but written by home talent.

"Music hath charms" and no one today will quarrel with Shakespeare's estimate of the character of the man who "hath not music in his soul" and abating here the criticism that the modern tendency for song is too technical and stilted, I desire to certify that for me, no grander music will be heard until we get "up yonder" than that furnished by a children's chorus in a lively Christmas song.

Angels, be silent; let children sing;
Christ is to them both Savior and King.

His gentle hand was laid on each head—
His loving voice so tenderly said:
"Suffer the children to come unto Me,

For of such the Kingdom of Heaven shall be."
Oh, what a wealth of love sublime
He brings to the children at Christmas time!

An inspector one day visited a country school.

"Now, children, I want you to take notice of what I do and then write an account of it." Then he stepped to the blackboard and wrote:

"I love a good school."
All the children wrote in effect that the inspector came into the school and wrote on the blackboard. One little girl, however, followed instructions to the letter by adding: "And then he went to the platform, sat down, played with his watch chain, twirled his mustache and winked at the lady teacher."

DEFERENCE

That of all the points of good breeding I most require and insist upon is deference. I like that every chair be a throne and hold a king. I prefer a tendency to stateliness, to an excess of fellowship. Let the incommunicable isolation of man teach as independence. Let us not be too much acquainted. I would have a man enter his house through a hall filled with heroic and sacred sculptures, that he might not want the hint of tranquility and self poise. We should meet each morning as if from foreign countries, and spending the day together, should depart at night, as into foreign countries. In all things I would have the island of a man inviolate. Let us sit apart as the gods, talking from peak to peak all around Olympus.—Emerson

WE ARE FORCED TO MOVE

NOTICE—We are NOT going out of business, but our lease has expired and we are going to move the stock we have left after January 1st to the property at the corner of Glendale avenue and San Fernando boulevard, just one block south of our present location. It is a big job to move Nursery Stock and that is why we are making such tremendous low prices on our entire stock and by buying now you will save at least 50 per cent. on your order.

Just think of it! We are closing out at

10c Each

a very fine lot of fruit trees, consisting of apples, peaches, pears, plums, apricots, nectarines, quinces, etc. These trees are all first class in every particular and guaranteed to grow and do well and be absolutely true to name.

Why not buy some fine beautiful ornamental trees or house plants for Christmas? Nothing would be more appropriate or more highly appreciated than a gift of some of these beautiful plants.

We have a very fine assortment of

Ferns, Jerusalem Cherries, Cyclamen Plants, Primulas, Cinerarias

and many other beautiful house plants in fine condition for immediate delivery. Or you may make your selections now to be delivered later.

POTTERY--For all kinds of house plants, Jardiniers, Fern Dishes, Lily Dishes and Flower Holders in various fancy shapes and colors.

Remember this is a **Great Stock Reduction Sale** and we invite you to call and inspect our stock whether you buy or not.

GLENDALE, CALIFORNIA, SATURDAY, DECEMBER 16, 1916.

SHALL I COME TO CALIFORNIA?

The question is often asked by men and women in the east and the middle west, "Shall I come to California?" The answer given to the question should be governed by circumstances. The man who has retired from the activities of life and has sufficient money to keep him the remainder of his days will find California, especially the southern part of it, an excellent place to live. The climate the year round is ideal, and the surroundings are beautiful. Why should a man remain in a section of the country where he is imprisoned from November until April on account of the extreme cold and the terrific snow storms when he can live in California and enjoy the beautiful sunshine and the balmy atmosphere the temperature of which never gets down to the freezing point? Why should a man spend the spring, summer and autumn months in sections of the country where electrical storms destroy life and ruin property, when Southern California affords a dwelling place that is free from these terrible life-destroying electrical storms?

That thunder cloud that in the middle west gathers at the horizon in the evening, and as the night comes on gradually becomes nearer and takes on a more angry appearance, has caused brave men to retire with fear and trembling. Before midnight the lightning flashed, the thunder roared, and the wind blew at a frightful velocity, in some instances unroofing buildings and uprooting trees. The fury of the middle west thunder storm cannot be exaggerated by use of words, and to this fact can the natives of Illinois, Iowa, Wisconsin, Indiana and other states testify.

For a place that affords supreme enjoyment of climate and desirable surroundings California stands second to no other state in the union, and fortunate indeed is the man who is in a position to make his home in this beautiful state.

The question arises, "Should the man of limited financial means of the east come to California to reside?" That, too, depends upon circumstances. If the man in question is exceptionally well skilled in his trade, and if he is of an industrious makeup, there is room for him in California, but if he is slow and belongs to that class that thinks the world owes him a living and he should get that living whether he works or not, then he would better stay in the east among relatives and friends who will extend to him a helping hand.

While thousands upon thousands of industrious, brainy men have come to the Pacific coast, it is true that thousands upon thousands of men have sought the charms of California who were unprepared to cope with the problems confronting them in a land that is over-run by a class of people who are illy prepared to provide for themselves.

Come to California if you have money; come to California if you are a man of common sense and not afraid of work. Stay away from California if you have no money and are looking for soft snaps. There are so many people looking for soft snaps in California that the country is over-run with them. Fortunes are made in California, but they are made by those who would succeed in business elsewhere; high salaries are paid in California, but they are paid to those who are deserving.

Come to California with the intention of being an asset to the state and not a liability. Come to California with constructive and not destructive purposes. Come to California believing it is the greatest and grandest state in the union, and make good your belief by assisting in making the state greater and better.

ITEMS OF STATE EXPENSE

John S. Chambers, state comptroller, in his report to the legislature, says that education in California is now costing over \$36,000,000 a year, which on the basis of a population of 3,000,000 is \$12 per capita. This includes not only the cost of the common and the high schools, but also the state normals, the university, new buildings, general maintenance, etc. Our public hospitals, benevolent institutions, prisons and reformatories are costing over \$26,000,000 a year for the state, the counties and the cities, or a per capita of nearly \$9.

NATIONAL FORESTS FOR WATER POWER DEVELOPMENT

In the fiscal year 1916, says Henry S. Graves, Chief of the Forest Service, in his annual report, 20 new waterpower projects which utilize National Forest land began operation. This was an increase of 18½ per cent. in the total number. In the fiscal year 1915 the number of new projects which began operation was 12. Forty-two per cent. of the total developed waterpower of the United States utilize National Forest land, the Forest Service figures show.

Development of relatively small projects is particularly in evidence, according to Mr. Graves, in the Rocky Mountain States. California leads in the amount of power under permit and in operation. The number of transmission line permits in effect was increased by 13 during the year. The 40 applications for power-project permits received in 1916 included 8 from Alaska—a notable evidence, according to the report, of increased local interest in power development on National Forest lands there.

Concerning the report prepared by the Forest Service in response to a resolution of the Senate calling upon the Secretary of Agriculture for information regarding the ownership and control of waterpower sites and any facts bearing on the question as to the existence of a monopoly in the ownership and control of hydro-electric power in the United States, Mr. Graves says: "This report presented in far greater detail than has ever been attempted before an exhaustive analysis of the general power situation. It showed a marked concentration of definite and complete control of a large percentage of developed waterpower by a very few companies. Data presented regarding interrelationships through common directors and principal officers indicated a marked tendency toward association or community of interests, particularly between the principal holding companies. The movement toward concentration in commercial central stations of all the primary power em-

Facts and Comment

Riverside county has been asked by the Starns-Roger Manufacturing Company of Denver to guarantee 10,000 acres of land planted to sugar beets as an inducement to establish a \$1,000,000 sugar factory at Riverside.

More than 1,000,000 feet of lumber is being brought to the municipal docks at Long Beach from lighters, which receive the lumber at San Pedro from vessels consigned to the harbor, and unable to get in owing to the mud which fills the channels. These shipments are the heaviest in many months.

Plans are being completed for the erection of a large hotel and lodge on the Rim of the World route, near San Bernardino, for Harry Dillon and his associates. All will be of log construction, with concrete foundation, rustic interior finish, etc. About \$100,000 will be expended.

George W. Cobb, assistant general manager of the American Can Company, at the recent session of the New York Canners' Association in New York stated that the prices of canned goods must advance in 1917. Some of the reasons given were the cost of seed, crop failures, scarcity, inefficiency and high cost of labor and high prices of steel for cans; also state and federal laws restricting the hours of work in canneries.

The government's new plant for producing potash from kelp, which is to be built at Summerland, near Santa Barbara, will be in operation within ninety days, according to J. W. Turrentine, chemical engineer of the department of agriculture, who recently returned east. Work will be rushed on the \$150,000 plant, which will be capable of handling 200 tons of kelp a day.

Fred Clarke Holden of Santa Monica, aged fifty three, last Wednesday enrolled as a student in the Santa Monica high school. Mr. Holden's health was impaired and his memory shattered as a result of being crushed during a storm off China several years ago and it was only a short time ago that he was able to recall his father, who is James C. Holden, F. R. G. S. of Montreal, a noted traveler, and learned from a chance acquaintance that he had a family. He has decided that life holds enough for it to be worth while starting over new.

played in the electrical industries and in manufactures was found in all sections of the United States, the rate of concentration during the period 1902-1912 being highest in the South Atlantic States and the extent of concentration greatest in the Western States.

"The rate of increase in water power development for public service use from 1902-1912 was approximately three times as great as in steam power. Primary power installation from all sources and for all uses increased from 1902 to 1912 more than 2½ times as rapidly in the eleven Western States as in the remainder of the United States, while the increase for primary electric power for the same period was 440 per cent. for the Western States, as against 226 per cent. in the other States. The development per capita of the Western States in 1912 was 2½ times as great as in other parts of the country.

"The report showed a considerable over-development in nearly all the power centers of the Western States—California, Oregon, and Washington in particular showing installations far in excess of maximum demands."

RHODE ISLAND GRANITES

The United States Geological Survey has on hand for free distribution a number of copies of Bulletin 311—The Green Schists and Associated Granites and Porphyries of Rhode Island. As indicated by the title, the report is technical in character and would probably not be of interest to others than geologists and petrologists. It contains a good geologic map of the area and is further illustrated with figures showing the structure of some of the crystals mentioned. A copy of Bulletin 311 will be sent free on application to the Director, U. S. Geological Survey, Washington, D. C.

It is alleged by a Long Beach boatman that hundreds of tons of fish have been cast overboard from San Pedro and Long Beach fishing launches by Italian and Austrian seamen, who are fighting the low standard of prices set by Japanese fishermen at this season for sardines and other fish caught in immense nets. It is probable that the state fish and game commission will be appealed to to investigate this alleged wholesale waste of fresh fish.

TRAINED TO FAILURE

It is astonishing how carefully some people prepare for failure as carefully as if it were their ideal, their supreme desire. They train themselves systematically in the belief that success is not for them. If they encounter some slight obstacle in the way of an undertaking, they accept it as conclusive. "Of course," they say triumphantly, "I might have known that something would happen." They give ear to the people who throw cold water, the friends who always have a head-shade, and a conclusive argument against any departure from the path of the least resistance.

In addition to this, these people carefully avoid fitting themselves for anything useful. They are much more interested in killing time than in improving time. They never look further ahead than a summer vacation. It is no wonder that such young people make a failure. If they trained themselves to succeed as carefully as they train themselves to fail, success would be as easy as the other.

Personals

Mrs. M. Salom of Dryden street, purchased from the local agents a light 8-cylinder Oldsmobile de Luxe this week.

Dr. V. O. Saphro of La Canada this week acquired an 8-cylinder Oldsmobile touring car from the local agents.

Mr. and Mrs. Rasson Brainerd of St. Albans, Vermont, have come to Glendale to spend the winter and are stopping at the Hotel Gray.

The new officers of Glen Eyrie chapter, O. E. S., took their chairs under very favoring auspices Thursday night, there being a very good attendance and all the officers did exceptionally well in their work.

I. S. Brown of 1317 Lomita, now at Thornycroft recovering from an operation for appendicitis, is gaining strength very rapidly and hopes to be at home in a few days.

Mrs. Jeanette Dixon of Bristol, Kendall Co., Ill., has come to spend the winter with her sister, Mrs. Chas. Casselman, 1551 W. 7th. Mrs. Dixon is greatly enjoying the beautiful California weather we are now experiencing.

Mrs. Samuel H. Pollock of West Park avenue returned this week from her eastern trip, bringing home with her, her nephew, Darwin Kassell of Rochester, New York, who will attend the Tropico grammar school.

Mrs. Augusta Palmer of New York City is the guest of her sister, Mrs. E. J. Morgan of Palmer avenue, and is also visiting her daughter, Miss Grace Palmer, who has been visiting Mrs. Morgan. Mrs. Palmer will spend the holidays visiting relatives here and in Pasadena.

Hasty Bidwell, a former resident of 245 S. Howard street and graduate of Glendale high school, was brought back to Glendale about a week ago in a serious condition as a result of injuries received in Arizona where he went several months ago to take a mining position. He is at the Thornycroft hospital, and while still in a serious condition, is improving.

Clarence Ball of 1463 West Seventh street, who is property man for the Kalem moving picture company, suffered a painful accident on Thursday morning. In jumping off the stage at the studio in Hollywood Mr. Ball sprained his left ankle very badly, tore some of the ligaments loose, and broke a piece off the bone. He is at present at the Sisters Hospital but will return home Monday, and it will probably be about six weeks before he will be able to use his foot.

Mrs. Ella W. Richardson, curator, and Mrs. Harry Greenwalt, secretary of the civic section of the Tuesday Afternoon club, assisted by Mrs. Colin Cable, have arranged a program and issued invitations to the ladies of that section and their escorts, also to the city trustees and their ladies, to an "at home" Friday evening, December 22, 1916. The purpose of the gathering is to encourage the spirit of helpfulness, co-operation and good fellowship along the line of civic work.

Mrs. W. E. Evans entertained with a charming dinner party on Thursday evening, December 14, in honor of the birthday anniversary of Mr. Evans. The table was prettily and artistically decorated with red carnations and ferns and the favors were dainty red crepe paper baskets, carrying out the color scheme. The birthday cake was red and white and gayly bore the proper number of candles. Covers were laid for Mr. and Mrs. N. B. Jones, Miss Winifred Jones, Mrs. M. Ewell Smith, Mr. and Mrs. W. E. Evans.

The Parent-Teacher association of the Central avenue school held its regular meeting at the school on Thursday afternoon, when a very enjoyable Christmas program was rendered. Mrs. F. Kurtz presided. The pupils of the fifth and sixth grades sang three Christmas carols: "The Boar's Head," "From the Starry Heavens High," and "Stilly Night." Genevieve Burr and Charles Burr gave two piano selections, "The Cricket and Bumble Bee," and "The Boat Song." Helen Dimick gave a reading entitled "Poor Papa." Rev. V. H. Cowser gave an interesting talk on the subject of "Giving." Donations of clothing, all in perfect order and condition, were brought by the members and generous donations of food were brought by the pupils and turned over to the emergency committee to be sent out to needy families.

A POOR PRESS AGENT

Max O'Rell was exceedingly popular as a lecturer, and the way in which his mother viewed the suggestion that her son should take to the platform is worth repetition. She wrote to him from the native village which she had never left for more than a day to say that she did not think appearing before audiences to be reputable business, and when he replied that he had decided to do it and had signed a contract to that effect the dear old lady wrote back that she was "still" his loving mother and that she would tell no one in the village about it.

LOS ANGELES MILK SUPPLY SCORED BY EMINENT PHYSICIAN

The following is part of an article on the Los Angeles milk supply, written by Dr. Woods Hutchison in the Los Angeles Examiner of October 24, in which creameries and milk dealers of Los Angeles are censured:

They maintain model shops, where everything is shining glass or snowy porcelain or polished metal, and beautiful model dairy barns in prominent and easily accessible places near the city, which the public is cordially invited to visit at any time, but are at the same time buying, with the other hand, so to speak, thousands of gallons of what is coarsely but most descriptively known in the trade as "swill" milk, that is to say, produced from scrub, poorly fed and even diseased cattle, in dirty barns, handled by ignorant, dirty and careless workers, who spit on their hands and wash the udders in the milk pails, and let the cats drink out of the buckets, and use any old water to wash their bottles and cans with.

And this miserable stuff, after filtering, pasteurization and bringing up to the legal butter fat standard by the addition of their own over-rich milk, is sold as clean, high-grade milk, under the name of the firm. Furthermore, many of these big companies, as health officers will testify from bitter experience, while delighted to meet the inspector more than half way and comply with the law in their own establishments, offer a concealed, but exceedingly bitter and effective opposition to the cleaning up and sanitation of these dirty milk joints on the back roads and in the hill country and the remotest districts, from which they obtain that part of their milk supply which pays them the highest profit.

TUJUNGA

Mrs. Harrington's Birthday

Mrs. Philip Begue and daughter, Miss Mary, planned and executed a most delightful surprise for their old friend and neighbor, Mrs. Harrington, to celebrate her eighty-fifth birthday anniversary November 28. Miss Mary Begue at the wheel of their beautiful new auto arranged a trip through La Canada, the Arroyo Seco, to Pasadena and Eagle Rock, for Mrs. Harrington and her sister, Mrs. Dr. Ferguson and a group of their friends: Mrs. Read, Mrs. Chase, Mrs. A. A. Knight and Miss Carrie Brown. On their return the party stopped at the Begue ranch where a birthday cake and hot chocolate were served by the hostesses. It was a happy occasion and will long remain a pleasant memory to the participants.

In last week's account of the annual meeting and election of officers and committees of the Christian Endeavor Society several names were omitted. They are as follows: Miss Stella Wieman, chairman of Prayer Meeting committee; Miss Gertrude Van Batten, chairman of the Look-out committee; Miss Helen Green, chairman of the Cottage Prayer Meeting committee; Miss Edna Mae Van Batten, chairman of the Missionary committee; Richard Frost, pianist.

The Junior C. E.'s are making a steady growth. There is much enthusiasm shown in the work under the management of Mrs. Malona.

Last Saturday Dr. Buck and Chas. N. Thayer made a trip to Fillmore, Ventura county, by auto. They report that that part of California is a wonderfully productive country. The trees are fairly loaded with citrus fruit.

Doll's Theater

Twelve little children were made very happy last Saturday afternoon by their friend Mrs. Zachan at the Zachan ranch. Mrs. Zachan gave an entertainment, the conception and arrangement of which were carried out in a unique manner. A play representing the Hansel and Gretel fairy story played by dolls manipulated by Mrs. Zachan who was so clothed as to represent part of the scenery and then adding to the reality of the affair. The house and in fact the entire stage properties were made of gingerbread, decorated with candy, all the work of the hostess who has had much experience in her life among the wealthy and nobility of Germany and elsewhere, in planning and arranging various entertainments. The little guests were in an ecstasy of delight at the various representations. The witch was a most dreadful creature manufactured from a turnip with a wicked face and fierce hair sticking out from her bonnet, and the gingerbread boys and girls and dukes and other creatures filled their little hearts with joy. The guests besides the children were Mrs. Fischer, Mrs. Rowley of Sunland and Mrs. Zachan's special friend, Mrs. Clara Noyes of Pasadena.

Mr. and Mrs. Charles W. Dean accompanied by Mr. Dean's father and mother, Mr. and Mrs. D. C. Dean, made a trip the first of the week, to Griffith Park for a day's outing.

Thursday afternoon of last week the Ladies Aid met at the home of Miss Helen Atkinson on Pine street instead of at Mrs. Leo Long's as had been previously announced. Mrs. Lang was unable to have the meeting on account of sickness in the family. The discussion of the afternoon centered around status of wo-

Sunday Services at the Churches

LUTHERAN CHURCH

The glad season of Christmas is here. It means so much to personal faith and hope. It is the renewal of God's promises. In the Lutheran church this coming Sunday morning the pastor will speak on "A Christmas Meditation, the Slow Fulfillment of God's Promises, Nevertheless They Are Sure." In the evening the congregation and friends are invited to the pastoral residence 340 South Central avenue, where services are being held temporarily. At this service the pastor will present in the reformation series of talks "Luther and His Visit to Rome." All invited. The Christmas services of the Bible School will be held in the S. D. A. Church on Christmas Eve, Sunday evening, Dec. 24th. There will be a beautiful and interesting program of choruses, solos, duets, violin solos, recitations and readings. All invited. Watch for the full program next week.

CASA VERDUGO M. E. CHURCH

Julius Soper, pastor.
9:45 a. m.—Sunday School.
11 a. m.—Regular preaching service. Subject: "Cause and Cure of War."
6:00 p. m.—Bible study class, conducted by Miss Soper.
6:45 p. m.—Epworth League.
7:30 p. m.—Mrs. William Francis Rice, for many years a missionary in South America, will speak in the interests of the foreign missionary society.

CHRISTIAN CHURCH.

Elder Frank W. Emmerson will preach for us again Sunday morning and evening. He is a ripe scholar, sound in the faith and true to the Book of Books in his preaching. We will have special music.

We expect our new pastor, Elder Clifford A. Cole, on December 24th, though he will not assume his duties as pastor until the first of the year. He will be given a royal welcome.

ST. MARK'S EPISCOPAL CHURCH

Rev. C. Irving Mills, D. D., Rector. Services tomorrow, December 17. Third Sunday in Advent. Holy Communion 7:30 a. m. Sunday school, 9:30 a. m. Morning Prayer and Sermon, 11 a. m. Topic of sermon by the rector: "St. Joseph." Excellent music by robed choir. Miss Ina Whitaker, organist. This will be the first appearance of the boys choir which is under the direction of Mrs. LeRoy W. Bosserman. No evening services.

CATHOLIC CHURCH

Seventh Street, near Everett. Mass at 8 and 10:30 a. m. Sunday School at 9 a. m. Baptisms at 2 p. m. JAMES S. O'NEILL, Rector.

men both in the Bible times and at present. Mrs. Wieman led the discussion. An interesting feature of the afternoon was the announcement of a nucleus for the building fund of the church. Mrs. Dora Morris had received a small sum of money unexpectedly and wishing to do something special with it decided to give it to the building fund. May its growth be prodigious.

The J. W. Lewis property on Sunset boulevard was sold last Saturday by our enterprising real estate man, D. C. Dean, to Mr. E. Emler of Los Angeles. The Emlers are friends of the Maggros.

Christmas Preparations

The preparations for the Christmas exercises are coming on apace. The committee on arrangements, Miss Stella Wieman and Miss Bertha Fehr are making every effort to bring the entertainment to a successful issue. But in order to have it a success it is necessary for every one who is called upon to respond with a hearty good will in every way he can. The funds for the treat which is expected to be provided for all the children of the community must come by voluntary contribution. Any one having a contribution for this fund, do not wait for the committee to call upon you but leave your gift with either Mr. Wieman or Dr. Kearney. Neither of whom has time to solicit for this cause. Always heretofore there has been plenty of money for the Christmas treat so that everyone present, children and older ones alike, have had a share and no doubt there will be an ample provision on this occasion. This is simply to remind you to bring your donation to the committee on time either this week or next.

The Woman's Club held their regular meeting Thursday afternoon of last week at the club house. It was decided to prepare a box of clothing and a basket of provisions to be presented to the Parent-Teacher association of Los Angeles. Mrs. J. H. Frost gave an interesting address on "Education in America." Mrs. Frost spoke more along the line of what is lacking and needful in our system of education rather than on the system as it is conducted at present. At the next meeting Mrs. Shannon will talk on the subject of "Handicapped Children."

LADY ASSISTANT

Mrs. Lee of Glendale was here recently, looking over the town. She thinks this a good location for a sanitarium.

Mr. and Mrs. Prescott of Los Angeles are occupying the Hodges cottage on Los Angeles street. They expect to remain for the winter.

The French class met at the home of Mrs. Woodrow on North Pine St., last Tuesday morning. There is much interest shown by the students comprising this class and Mrs. Slavinsky reports the progress made as very satisfactory. Miss Culver, one of Mrs. Slavinsky's assistants was absent on business in the city.

There was an old-fashioned cream social and Victrola concert at the Eckert cottage on Sunset boulevard last Thursday evening for the benefit of the Woman's Guild.

Mr. Charles W. Dean goes this week to the Shattuck-Nimo farm between Phoenix and Tempe, Arizona. This is a reclamation project of the Roosevelt Dam and Mr. Dean will fill the important position of cost accountant for this company. Because of the illness of Mrs. Free, Mrs. Dean's mother, Mrs. Dean will remain here for the present.

Last Monday the papers were signed for the sale of the Rowley ranch to Mr. Fitzgerald whose ranch ad-

Sunday Services at the Churches

ADVENTIST CHURCH

Corner Third and Isabel streets.
Sunday evening at 7:45 the pastor,
Geo. A. Snyder, will speak on "Ancient
Forecasts of Modern Scientific
Discoveries." Astronomical photo-
graphs of the mysterious nebula in
the Sword of Orion will be shown up-
on the picture screen. All are wel-
come.

PRESBYTERIAN CHURCH

A "Cherith" experience will be
the pastor's topic Sunday morning, 11
o'clock. Sabbath school meets at
9:30. Junior Endeavor 3 p. m. C.
E. meeting 6:15.
Evening service 7:30. The pastor
will preach. Topic, "Lessons From
the Lizard."
The people's Bible class will take
a recess till after the holidays.
Special evangelistic meetings will
be held January 8-21.

CHRISTIAN SCIENCE

First Church of Christ, Scientist,
holds services in their church edifice,
corner Second and Maryland avenue,
Sunday morning at 11. Subject Sun-
day, December 17, "Is the Universe,
Including Man, Evolved by Atomic
Force?"
Sunday school is held at 9:30 a.
m. Wednesday evening testimony
meeting at 8.
Reading room, 415 1/2 South Brand
boulevard. Open daily except Sun-
days and holidays from 12 m. to 4
p. m.

CONGREGATIONAL CHURCH

Dr. Williamsford will speak at both
services. 11 a. m. that great and
gracious ninety-first Psalm will be
studied. Those who are to attend
this service are asked to read, at
least once this wonderful portion of
God's word.
7:30 p. m., the sermon text will be
"As Thy Servant Was Busy Here
and there, he was gone."
9:45 a. m., the Sunday school as-
sembles.
6:15 p. m., Intermediate C. E.
Dr. Fox in his great lecture Mon-
day evening at 8 o'clock. Subject,
"How I Made a Fortune."
The Christmas exercises of the
Primary department will be held
Friday afternoon, those for the main
school Saturday evening.

FIRST METHODIST CHURCH

"Dollars, Shillings, Francs and
Doubloons," will be the subject for
the Sunday morning sermon at the
First Methodist church. The choir
will render Scott's "The Morning
Light is Breaking." Miss Isgreig
and Mrs. Starkey will sing, "O Di-
vine Redeemer," by Gounod. This is
the people's church and all are wel-
come.
At the evening hour of worship
the pastor will speak on "The
World's Conjure Word." What is
the word you conjure with? A mes-
sage for all. A red-blooded message
for red-blooded people. Special mu-
sical numbers. Chorus, "The King
of Love My Shepherd Is" by Shelly.
Solo, "Rock of Ages" by Ranick—
Miss Marion Addison.
Bible School 9:40 a. m.
Class meeting 12:15 p. m.
Epworth League 6:30 p. m.
Church location Third and Dayton
Court.

WEST GLENDALE METHODIST CHURCH

"Zacchaeus, the Son of Abraham."
This will be the last in the series of
special Sunday evening sermons of
this very interesting character. Large
audiences have listened to the others
in the series. We anticipate another
at 7:30 Sunday evening. The young
folks will have charge of the arrange-
ments. Archie Smellie of Los An-
geles, a boy friend of Harry Lauder,
will assist the chorus choir and or-
chestra. A profitable evening is in
store for all who attend. At the
morning service the pastor will speak
from the subject, "The Forgotten
Christ." This will be another pre-
Christmas sermon. C. C. Clewett
will lead the league. The brother-
hood has decided to hold a prayer
and praise service for the men. The
first will be held at the same hour
the League meets. The room occu-
pied by Mrs. Pixley's class will be the
place. All the men are invited. Sun-
day school meets as usual. A wel-
come to all, especially strangers.

IN PRAISE OF TOWN

I like my town life vastly. I shall
like it still better in the winter.
There is an indescribable charm to
me in this form of human nest-mak-
ing. You enter a by no means at-
tractive looking house, you climb up
two or three flights of cold, dark-
looking stone steps, you ring at a
very modest door, and you enter a
set of rooms, snug, or comfortable,
or elegant. One is so out of reach
of intruders, so undisturbed from
one's occupation by externals, so
free from cold, rushing winds
through hall doors—one feels in a
downy nest high up in a good old
tree.—George Elliot.

BUY AT OUR

charming spectacle a splendor and magnificence never before at-
tained.

A football classic, a championship game between teams from
the East and West—the University of Pennsylvania and the Uni-
versity of Oregon—will be played at Tournament park at 2:15
o'clock. Gridiron stars of national prominence will be seen in
action.

A massed band concert, with half a dozen of the leading bands
of Southern California, participating, will precede the game.

A grand ball, with the football players as guests of honor,
will be given in the evening.

TWO KINDS OF HEROES

This indeed is a great day for her-
oes and our literature is at work,
as in a trade, upon their manufac-
ture. But it will some time be dis-
covered that, in actual life, there
are two kinds of heroes—heroes for
the visible, and heroes for the invis-
ible; they that see their mark hung
out as a flag to be taken on some
turret or battlement, and they that
see it nowhere save in the grand
ideal of the inward life; extempore
heroes fighting out a victory defi-
nitely seen in something near at
hand, and the lifelong, century-long
heroes that are instigated by the
ephemeral crown or more ephemeral
passion. . . . The former class
are only symbols, I conceive, in the
visible life of that more heroic and
truly divine greatness in the other.
—Horace Bushnell.

"There ought to be only one head
to any family," shouted an orator.
"That's true," replied a married-
looking man in the audience.
"You agree with me," shouted the
speaker.
"I do," replied the married-look-
ing man. "I've just paid for hats
for nine daughters."—People's Home
Journal.

Let go of yesterday. There is
nothing gained by holding on to the
things which are behind you. The
failures of the past should not be
allowed to shadow the present, and
the achievements of yesterday can-
not suffice for today. Take the les-
son from your past, as a bee sips
honey from a flower and then leaves
it. Let go of yesterday.

The Truth About the Milk Question

RECENTLY LOCAL MILK DEALERS IN GLENDALE AND VICINITY FORMED THE GLENDALE RETAIL DAIRYMEN'S ASSOCIATION. THIS ASSOCIATION WAS FORMED IN ORDER THAT THE LOCAL MILK PRODUCERS MIGHT SAVE BY BUYING FEED AND DAIRY SUPPLIES CO-OPERATIVELY IN LARGE QUANTITIES, AND THEREBY KEEP THE RETAIL PRICE OF MILK FROM RISING IN PROPORTION TO THE RISE IN COST OF THE PRODUCTION OF MILK.

TRUE, THE LOCAL PRICE OF RAW MILK WAS RAISED FROM 5C TO 6C A PINT AND FROM 10C TO 11 C A QUART, BUT EVEN SO, LOCAL RAW MILK IS CHEAPER AS WELL AS FRESHER, THAN THE RAW MILK SOLD BY LOS ANGELES CREAMERIES AND DEALERS, WHICH IS SOLD FOR 12C A QUART.

A1 RAW MILK WHICH IS THE ONLY MILK SOLD BY GLENDALE DAIRIES SHOULD NOT BE CONFUSED WITH THE INFERIOR PASTEURIZED MILK DELIVERED BY OUTSIDE FIRMS, WHO SECURE THEIR MILK SUPPLY (THE MILK THAT IS PASTEURIZED) MAINLY FROM MANY SMALL PRODUCERS SCATTERED WITHIN A 150 MILE RADIUS OF LOS ANGELES. THIS PASTEURIZED MILK WHEN DELIVERED IN GLENDALE IS FROM 24 TO 36 HOURS OLD—IS REDUCED TO A UNIFORM QUALITY AND IS PRODUCED IN SOME INSTANCES UNDER VERY FILTHY CONDITIONS (SEE ARTICLE BY DR. WOODS HUTCHINSON IN ANOTHER COLUMN.) WHILE GENERALLY BOTTLED AND PASTEURIZED IN A SANITARY PLANT, MUCH OF THIS MILK WOULD BE UNFIT FOR HUMAN CONSUMPTION IF NOT PASTEURIZED.

DO NOT ACCEPT AN INFERIOR MILK PRODUCT IN ORDER TO SAVE A CENT A QUART. THE HEALTH OF YOUR FAMILY IS WORTH MORE THAN THAT. SAVE IN SOME OTHER WAY IF YOU MUST. DON'T BE MISLED BY SMOOTH TALKING SOLICITORS WHO MAY TELL YOU THAT PASTEURIZED MILK IS THE EQUAL OF A-1 RAW MILK. HAVE YOUR LOCAL MILK TESTED BY YOUR PHYSICIAN. ABIDE BY HIS DECISION. PROTECT THE HEALTH OF YOUR FAMILY AND CO-OPERATE WITH THE LOCAL MILK DEALERS WHO ARE TRYING TO KEEP THE PRICE OF FRESH RAW MILK FROM EXCEEDING 11C A QUART IN GLENDALE, TROPICO, CASA VERDUGO, EAGLE ROCK, LA CRESCENTA AND LA CANADA OR SUCH ADJOINING TERRITORY THAT MAY HAVE MEMBERS.

The Real Value of Milk

Especially Fresh, Raw Milk

Milk is not merely a delicious beverage. It's a food.

Nature combines in milk all the food elements your body needs. Some produce bone and muscle. Some rebuild it. And some create energy. And they are carefully balanced. So that you get the right proportions.

Amongst foods none can compare with delicious, stimulating milk. None are so easy to obtain. None so economical.

Prof. Rosenau of Harvard says you would have to buy and prepare $\frac{3}{4}$ -pound of beef, or 8 eggs, or two pounds of chicken or codfish, to get the nourishment contained in a single quart of milk.

Milk is a concentrated food, you see.

AT TWICE THE PRICE MILK WOULD BE ONE OF THE CHEAPEST OF FOODS

Fresh milk is the ideal food for men and women who work with muscle or with brain—people who are doers. Milk drinkers are always temperate. They know that what one eats and drinks today is thinking and working tomorrow.

Fresh raw milk is not pasteurized milk.

Milk drinkers seldom over-eat. They keep their bodies in fine physical trim. Their efficiency is 100 per cent every day. They are ready for emergencies.

Then heed the advice of great food specialists. Dr. J. H. Kellogg says: "Most people will find that they can reduce their daily rations by one-third, sometimes one-half, without any inconvenience whatever."

Nature first gives the infant milk. Why ever stop it? Why defy Nature?

For the growing child, for the young man and woman, and for the maturer years milk is a needed food.

Drink it slowly—eat it. That insures complete digestion. Consider milk in the place of the heavier, slowly digestible foods. Use milk as a substantial part of your meal. Begin today to drink more milk. Teach every member of the family to know its value.

When you come to drink more milk for every meal you'll know the real joy of living. Brain fog will be rarer. Bodily fatigue will disappear. Remember, good health is the foundation of all success.

A Few Facts About the Local Milk Industry

YOUR HOME DAIRYMEN SELL THE RESIDENTS OF GLENDALE, TROPICO, CASA VERDUGO AND EAGLE ROCK, LA CANADA AND LA CRESCENTA, BETTER, FRESHER AND CLEANER MILK AND CREAM THAN DOES ANY OUTSIDE FIRM.

GLENDALE DAIRIES SELL MILK CHEAPER THAN OUTSIDE MILK IF QUALITY IS CONSIDERED. FRESH RAW MILK IS DELIVERED BY LOCAL DAIRIES TWICE DAILY AT 11 CENTS A QUART. LOS ANGELES CREAMERIES CHARGE 12C A QUART FOR RAW MILK. ONLY PASTEURIZED MILK IS SOLD FOR LESS MONEY.

THE DAIRY INDUSTRY OF GLENDALE AND VICINITY FURNISHES EMPLOYMENT TO OVER A HUNDRED PEOPLE

THE COST OF PRODUCING MILK HAS RISEN OVER 100 PER CENT. THE RETAIL PRICE OF MILK HAS BEEN INCREASED ONLY 15 PER CENT.

THE FOOD VALUE OF MILK IF COMPARED TO MEAT, EGGS OR FISH MAKE IT ONE OF THE CHEAPEST OF FOODS, EVEN IF SOLD AT TWICE THE PRESENT PRICE.

GLENDALE DAIRYMEN HAVE FORMED AN ASSOCIATION WHICH BUYS ALL FEED AND DAIRY SUPPLIES CO-OPERATIVELY IN LARGE QUANTITIES—THEREBY SAVING ENOUGH TO HOLD MILK PRICES AT PRESENT LEVEL.

LOCAL DAIRIES ARE UNDER RIGID INSPECTION AND THE PUBLIC IS INVITED TO VISIT THEM AT ANY TIME.

Where REAL Milk Is Sold

Local Firms That Sell Local Milk

At most local stores and restaurants Glendale Dairymen's Pure Raw Milk can be secured. Local raw milk costs these firms a trifle more than would outside pasteurized milk—but the quality is more than worth the difference. Not only do these firms help support one of the greatest of Home Industries, but they insure their patrons getting a quality product.

The following firms secure milk from local dairies:

HORSCH'S GROCERY, Glendale Ave.
EATON & DRYER, Glendale Avenue.
SHAVER'S GROCERY, Cor. Glendale Ave. & Bdwy.
PAYNE & MOODE, 315 Brand Blvd.
McBRYDE GROCERY, Broadway.
BUNGALOW GROCERY, Cor. Central & Bdwy.
MUNSON'S DRUG STORE, Cor. Brand & Bdwy.
ROBERTS & ECHOLS, Next First Nat'l Bank.
NASH GROCERY, Cor. Second & Brand
TROPICO MERCANTILE, San Fer. Rd & Central.
DAMERSELL GROCERY, Glendale Avenue
CHAFFEE GROCERY, Brand Blvd.
QUALITY GROCERY, Cor. Third & Brand
GLENDALE PHARMACY, Cor Bdwy. & Glendale
SMITH'S GROCERY, S. Brand Blvd.
CENTURY GROCERY, West Broadway.
WHITE STORE, 1110 West Broadway
CENTRAL MARKET, S. Brand Blvd.
BLYTHE'S GROCERY, Cor. Sycamore & Columbus
DOLLY VARDEN CON., 411 Brand Blvd.
BLATT'S GROCERY, Verdugo Road
DEW DROP INN, S. Brand Blvd.
PARK AVENUE GROCERY, Cor Park Ave. & Brand Blvd., Tropico.
SNAVERY GROCERY, San Fernando Road

If your merchant does not handle local milk, ask WHY. YOU have a right to demand the BEST.

Cost of Producing Milk Has Risen 100% in Six Months

PERHAPS NO INDUSTRY HAS SUFFERED GREATER FROM A RECENT RISE IN THE COSTS OF PRODUCTION THAN THE DAIRY INDUSTRY. THE COST OF FEED OF NEARLY EVERY SUPPLY USED IN THE BUSINESS HAS SOARED IN PRICE FROM 20 PER CENT TO 150 PER CENT DURING THE LAST SIX MONTHS. MANY SMALL DAIRIES HAVE BEEN CROWDED OUT OF EXISTENCE. IN SOME LOCALITIES WHERE THE FIELD WAS DOMINATED BY A MILK TRUST OR BY MANY WEAK INDEPENDENT DAIRIES THE PRICE OF MILK HAS BEEN ADVANCED SEVERAL TIMES. IN GLENDALE LOCAL DAIRYMEN HAVE UNITED TO FIGHT RISING COSTS TO HOLD THE RETAIL PRICE OF MILK TO AS LOW A FIGURE AS POSSIBLE.

A-1 RAW MILK SOLD BY GLENDALE DAIRIES IS PRODUCED FROM TUBERCULAR TESTED COWS. PASTEURIZED MILK IS OFTEN PRODUCED FROM COWS AFFECTED WITH TUBERCULOSIS, AS THE LAW DOES NOT PROHIBIT THE SELLING OF SUCH MILK.

PASTEURIZATION, HOWEVER, DESTROYS SOME OF THE NATURAL QUALITY AND FOOD VALUE OF MILK. A-1 RAW MILK IS A MUCH BETTER FOOD FOR BABIES THAN IS PASTEURIZED MILK. ASK YOUR PHYSICIAN.

TABLE SHOWING COST OF PRODUCING MILK NOW AND SIX MONTHS AGO

	June 1st	Dec. 16th
Bottle Caps, per bbl.	\$ 8.50	\$21.00
Alfalfa Hay, per ton.....	12.00	22.00
Barley Hay, per ton.....	15.00	24.00
Oat Hay, per ton.....	18.00	25.00
Beet Pulp, per ton.....	20.00	28.00
Alfalfa Meal.....	18.00	27.00
Bran.....	30.00	40.00
Rolled Barley.....	32.00	50.00
Oil Cake Meal.....	42.00	50.00

THE PURPOSE OF THIS AD WAS TO TURN THE FULL LIGHT OF PUBLICITY ON MILK PRODUCTION AS MANY PEOPLE OF GLENDALE AND VICINITY HAVE NOT UNDERSTOOD THE RAPIDLY RISING COSTS OF MILK PRODUCTION OR THE DIFFERENCE IN QUALITY BETWEEN RAW MILK AND PASTEURIZED MILK. ALL THINGS BEING EQUAL, GLENDALE PEOPLE GET A MILK SERVICE THAT IS NOT SURPASSED IN ANY CITY IN THE UNITED STATES AND AT A RATE THAT IS EMINENTLY FAIR TO THE CONSUMER.
